Scheduled Traffic Signal Power Outage in Downtown Area Sunday, March 22nd

Traffic signals at 27 intersections throughout the downtown will not be operating from 8:00 a.m. to approximately 1:00 p.m. on Sunday, March 22, 2009. We Energies is performing scheduled maintenance to replace an electrical switch. In order to perform this work, the electrical substation which provides power to the affected intersection needs to be turned off. We Energies staff estimates the replacement will last five hours. Stop signs will be posted at the affected intersections. Motorists should use caution and obey the stop signs at those intersections. By 4:00 p.m. traffic signals should be restored.

The decision for the scheduled power outage was made based on the low traffic count on Sunday mornings. The affected intersections are:

- Prospect & Wells
- Mason & Prospect
- Astor & Kilbourn
- Juneau & Prospect
- Ogden & Prospect
- Curtis & Prospect
- Farwell & Ogden
- Water & Wells
- Jefferson & Wells
- Jackson & Wells
- Kilbourn & Water
- Van Buren & Wells
- Kilbourn & Milw.
