

# Workshop: Solar and Roof Structural Integrity

Hosted by City of Milwaukee – *Milwaukee Shines* and We Energies

- Learn about the City of Milwaukee’s new property assessed solar loan program for residents.
- Learn about how the installation of a solar panel system on a residential roof may impact the structure.

The instructor, [Bill Lindau](#), is the founder and principal engineer of Lindau Companies, Inc. and has over fifteen years of structural engineering experience. Bill will explain how a roof mounted solar energy system impacts loads and provide guidelines that will help a contractor determine when a structural engineer should be contacted.

**What:** Workshop on Solar and Roof Structural Integrity

**For Who:** Solar Installers and Site Assessors that service  
City of Milwaukee residents

**When:** April 30 from 8 am – 12:00pm (check-in at 7:30 am)
