APPLICATION INTRODUCTION

Program Highlights

Milwaukee County Community Development Block Grant applications for Program Year 2011 (January 1, 2011 - December 31, 2011) continue changes made several years ago. Please read the entire application thoroughly prior to filling it out.

Municipal applications for funding are due by July 29, 2010. Each municipality must hold a public hearing. The hearing should be held for the purpose of obtaining comments on your municipality's actual proposed use of Community Development funds for the coming year. After the due date, the applications are reviewed by staff for completeness and eligibility. The Economic and Community Development Committee makes its funding recommendations, whereupon they go to the Board of Supervisors and the County Executive for final action. The selected proposals are submitted to the U.S. Department of Housing and Urban Development in November. The program year, or the date at which money is actually available, begins on January 1. However, sponsors of projects are specifically cautioned that an approval of funding by County officials is not a notice to proceed. Costs incurred or funds obligated in any way by the sponsor prior to execution of an Agreement with Milwaukee County may not be reimbursed by the County.

Sponsors that receive funds must enter into an Agreement with the County for use of these funds. The Agreement requires awarded sponsors of construction projects to achieve minority business participation equivalent to 20 percent, and women's business participation equivalent to 5 percent, of the CDBG project cost. Construction work is subject to Davis/Bacon Act requirements that establish wage levels for workers. Any additional funding used with block grant dollars in construction projects are also subject to Davis/Bacon Act requirements that establish wage levels for workers. All projects are subject to environmental review and are covered by fair housing and equal employment opportunity law. If your project entails use of Community Development funds for a facility which provides any services to the public, or if your project will use Community Development funds to pay for services to the public, it must be demonstrated in Item #17 how the facility and/or programs will be accessible to handicapped individuals. The Agreement covers a designated term. Funded construction applications that are not completed within this term are subject to renegotiation. There will be no extensions issued for Public Service activities that are not completed in 2011.

Municipalities will be permitted to apply for Public Service activities in 2011, but funds will be limited due to the 15% federally imposed caps on this type of activity. **If requests exceed the allowed funding in this category, an allocation process will be implemented using the funding formula as a basis. No funds for Planning will be available in 2011.**

The Application

The Application consists of the name, address and contact information of the applicant followed by nineteen individual items and five forms.

Review all documents before beginning the Application. If any parts are missing from your copy of the Application, contact County staff immediately.

Sponsors must submit three copies of an application for each project. Capital improvements or purchases for an activity, and on-going operation of the same activity, are separate functions that require separate applications. Sponsors may photocopy pages common to different projects, but each submitted application must be unique to one project.

Applications must fully describe the information requested in the space provided. Do not add extra pages or submit supporting material - it will be discarded. **Applications must be typed. Round off requested amounts to the nearest whole dollar.** An incomplete response to any portion of the Application is possible cause for rejection. Technical assistance for application completion is available from the County staff.

**INSTRUCTIONS FOR PROJECT ELIGIBILITY
AND NATIONAL OBJECTIVE**

The following Project Eligibility List contains 20 basic activities that are eligible for Community Development Block Grant (CDBG) funding along with brief explanations of each. Following this list are explanations of six National Objectives that all eligible activities must also meet. In Item 7 of this Application for Funding you are asked to indicate by number and title (Ex: 03E, Public Facilities and Improvements, Neighborhood Facilities) the eligible activity your proposed project falls under and also to indicate the three-letter National Objective code which applies (Ex: LMC). If your proposed activity does not meet both an eligible activity and a National Objective it is not eligible for CDBG funding. If your proposed activity is best described under the eligibility designation 20, Planning, you do not have to enter a National Objective code. If there are any questions regarding use of eligibility or National Objective codes please call County staff.

NOTE 1: Eligible Activity **01, Acquisition of Real Property:** For acquisition activities, the national objective is to be based on the use of the property after acquisition. The determination of which national objective the activity will meet is to be based on the planned use of the property.

FORM 1 - NATIONAL OBJECTIVES

In order to be eligible for Community Development Block Grant (CDBG) funding, any of the eligible activities listed must also meet a basic National Objective, as designated by the following 3-letter codes:

LMA: An activity whose benefits are available to all the residents in a specifically defined geographic area (service area) in which at least 51 percent of the residents are low and moderate income persons.

Required Information: The following information is required to prove that the project qualifies as a low and moderate income area benefit activity:

- (1) Boundaries of the service area.
- (2) Location(s) of the activity.
- (3) Income characteristics of families and unrelated individuals in the service area documented by 2000 Census information.

LMC: An activity which benefits a limited, identifiable clientele, at least 51 percent of whom can be shown to be low or moderate income persons. In order to meet this national objective your organization must limit activity exclusively to low and moderate income persons, require information on family size and income so that it is evident that at least 51 percent of the clientele are persons whose family income does not exceed the low and moderate income limit, or serve a clientele who are generally presumed to be low and moderate income, which includes the following only: **abused children, battered spouses, elderly persons (62 or over), severely disabled adults*, homeless persons, illiterate adults, persons living with AIDS, and migrant farm workers.**

***Persons are classified as having a severe disability if they: (a) used a wheel-chair or had used another special aid for six months or longer; (b) are unable to perform one or more "functional activities" or need assistance with an activity of daily living; (c) are prevented from working at a job or doing housework; or (d) have a selected condition including autism, cerebral palsy, Alzheimer's disease, senility or dementia, or mental retardation. Also, persons who are under 65 years of age and who are covered by Medicare or who receive SSI are considered to have a severe disability.**

Required Information: For each activity, one of the following types of documentation must be kept to prove that the activity qualified under low and moderate income limited clientele:

- (1) Documentation showing that the activity is used only by a segment of the population presumed by HUD to be low and moderate income persons; e.g. abused children or,
- (2) Data showing size and annual income of the immediate family of each person receiving the benefit.

LMH: An activity carried out for the purpose of providing or improving permanent residential structures which, upon completion, will be occupied by low and moderate income households.

Required Information: In order to prove that the activity qualified as a low and moderate income housing activity, documentation must include:

- (1) For each unit occupied by a low and moderate income household, the size and income of the household.

- (2) For rental housing:
 - (i) Rent charged (or to be charged) after assistance for each structure assisted; and
 - (ii) Information as necessary to show the affordability of units occupied by low and moderate income households.
- (3) For each property acquired on which there are no structures, evidence of commitments ensuring that the above criteria will be met when the structures are built.

LMJ: An activity designed to create or retain permanent jobs where at least 51 percent of the jobs, computed on a full-time equivalent basis, involve the employment of low and moderate income persons.

Required Information: Information necessary to justify the job creation or retention National Objective is extensive and varies with the nature of the specific use of funds. In the simplest terms, for an activity that creates jobs, an applicant must document that at least 51% of created jobs will be held by, or available to, low and moderate income persons. For an activity that retains jobs, an applicant must document that the jobs would actually be lost without the requested CDBG funding and that 1) the job is currently held by a low and moderate income person, or 2) the job can reasonably be expected to turn over within 2 years and that steps will be taken to ensure that it will be filled by, or made available to a low and moderate income person upon turnover.

NOTE:

In order to assist you in determining the applicability of the National Objective codes LMA, LMC, LMH and LMJ, a table of the current definition of low and moderate income is provided below. Please notice that the income level is determined by family size. Any family where income can be shown to be at or below the level for the appropriate family size is considered to be a low and moderate income family. Any individual in a low and moderate income family is considered to be a low and moderate income person.

TABLE 1								
Family Size (Persons)	1	2	3	4	5	6	7	8
Low & Moderate Income	\$39,600	\$45,250	\$50,900	\$56,550	\$61,050	\$65,600	\$70,100	\$74,650

SBA: An activity which addresses prevention or elimination of slums or blight in an area if the following three conditions can be met:

- (1) The area is delineated as meeting the definitions of a slum, blighted, deteriorated or deteriorating area under state or local law;
- (2) Throughout the area there is a substantial number of deteriorated or deteriorating buildings or the public improvements are in a general state of deterioration; and
- (3) Your proposed activity addresses one or more of the conditions which contributed to the deterioration of the area.

Required Information: In order to prove that activities qualify as elimination of slum and blight on an area basis, documentation must include:

- (1) Boundaries of the area.
- (2) Municipal resolution designating the area as blighted under state law or a municipal attorney's opinion that the area qualifies as blighted under state law.
- (3) A description of the conditions which qualified the area at the time of its designation in terms of the following:
 - (a) Buildings survey, including code violations for structures deemed substandard.
 - (b) Details and scope of CDBG-assisted rehabilitation, by structure.
 - (c) Public Improvements - engineering survey/analysis documenting the condition of all public improvements to the extent necessary to qualify the area under this definition.

SBS: An activity which addresses the elimination of blight or physical decay on a spot basis, through acquisition, clearance, relocation, historic preservation and/or building rehabilitation.

Required Information: In order to prove that an activity qualifies as elimination of slum or blight on a spot basis, the records must include:

- (1) A description of the specific condition of blight or physical decay to be treated;
- (2) For rehabilitation carried out under this category, a description by structure of:
 - (i) The specific conditions detrimental to public health and safety which will be corrected; and
 - (ii) Details and scope of CDBG-assisted rehabilitation; and
- (3) A municipal attorney's opinion that the condition to be addressed meets the definition of blight under state law.

Percent Effort (Col. 5) - Indicate the percentage of time that will be spent on this project by persons filling the positions listed. Again, this percentage should relate only to the time that will be charged to County Community Development funding. Example - If the Executive Director of your organization will spend 10% of his or her time on this project, and the full 10% will be charged to County Community Development, then 10% should be entered in Col. 5. If the total number of persons in a single position title is more than one, then the percentage of effort should be the total for all persons with that position title. Example - If in Col. 2 you listed 2 persons filling the position of housing counselor, and each was to work on the project full time, then the proper entry in Col. 5 is 200%.

Cost to Project (Col. 6) - Multiply Col. 4, Average Annual Salary, by Col. 5, Percent Effort, to arrive at the total costs to the project for its entire period of operation.

Line 1 (Salaries) - This figure should be the total of costs reported in Cost to Project (Col. 6).

Line 2 (Fringe benefit costs) - This figure should include all normal fringe benefits paid by the employer on behalf of the employees, that are not otherwise included in the staff salary cost.

SCHEDULES 1B, 1C, and 1D:

Once again, all costs reported for items reported on these schedules should include only those to be charged to the County Community Development Block Grant.

Questions about specific items listed in the schedules should be addressed to program staff.

FORM 5: FAIR HOUSING ACTION PLAN

PROPOSED FAIR HOUSING ACTIVITIES FOR PROGRAM YEAR 2011:

MILWAUKEE COUNTY COMMUNITY DEVELOPMENT

BLOCK GRANT PROGRAM APPLICATION

INSTRUCTIONS FOR COMPLETION
FORM 5: FAIR HOUSING ACTION PLAN

1. Section 104(b)(2) of the Housing and Community Development Act of 1974, as amended, prohibits the U.S. Department of Housing and Urban Development (HUD) from making a Community Development Block Grant unless the Grantee certifies to the satisfaction of HUD that the grant will be conducted and administered in conformity with the Civil Rights Act of 1968 (P.L. 90-284).
The 1968 Civil Rights Act requires that HUD administer all housing and community development programs in such a manner so as to affirmatively further fair housing.
2. On the basis of these two provisions of law, HUD requires that Milwaukee County must certify that it will comply with Title VIII of the Civil Rights Act of 1968, administering all programs and activities relating to housing and community development in a manner that **affirmatively** furthers fair housing.
3. In order to fulfill this certification, Milwaukee County, and each participating municipality must take actions each year to affirmatively further fair housing. Examples of actions available to Municipalities to fulfill this certification include, but are not limited to, the following:
 - a. The enactment or strengthening of a fair housing ordinance as an affirmative statement to address fair housing violations.
 - b. The creation of a fair housing or human rights commission.
 - c. Identify local barriers to fair housing choices. These barriers are actions, omissions, or decisions taken, which have the effect of restricting available housing choice because of race, color, religion, gender, disability, familial status or national origin.
 - d. Outreach and counseling services to those racial groups underrepresented within the jurisdiction, through advertising in minority media and contact with minority civil rights, community and church groups.
 - e. The provision of education programs on fair housing and human relations for local real estate professional, rental property owners, church, civic and community leaders, schools, government employees and others.
 - f. Support and assistance to fair housing groups.
 - g. Organizing business, church, civic, community, and political leaders to support and act to further fair housing.
 - h. Providing financial, legislative and other support to enable the provision of affordable and low-income housing within the jurisdiction
 - i. Require the use of HUD affirmative marketing plans for local housing developments.
 - j. Solicit local leaders for voluntary affirmative lending plans.
 - k. Provide local compliance and monitoring processes.
 - l. Publication of information on the existence of and provisions in a local fair housing ordinance.
 - m. Development of written or other visual materials on fair housing with broad distribution in minority concentrated neighborhoods; i.e., public service announcements, pamphlets, films, etc.

MILWAUKEE COUNTY COMMUNITY DEVELOPMENT
