**WALKER TO ADDRESS STATEWIDE PROFESSIONAL FORUMS**

MILWAUKEE – County Executive Scott Walker will address two statewide forums on Tuesday, April 1.

Walker will welcome the attendees to the Commercial Real Estate Roundtable Forum, an interactive, discussion-based education format presented by the Commercial Association of REALTORS® Wisconsin. The forum will provide an opportunity for commercial real estate professionals to learn more about issues relating to their industry.

The Wisconsin section of the Institute of Transportation Engineers (ITE) is hosting a joint conference comprised of the Traffic Engineering Workshop and the Transportation Planning Forum. Walker will speak to the group on his vision for regional transit. The workshops and forum are designed to inform students, engineers, planners, technicians and others associated with municipal, county or state transportation on current issues and generate solutions to transportation problems.
