

City of Milwaukee Residential Foreclosure Initiative Contracting Opportunities

The City of Milwaukee is launching new rehabilitation programs to address the problem of foreclosed properties in City neighborhoods. It is expected that many of the properties receiving assistance through the program will need repairs such as roofing, porches, plumbing, electrical, heating, weatherization, and lead abatement.

Please join us for an informational meeting to see how your small business could play an active role in rehabbing residential houses for the City's Foreclosure Initiative.

**Monday, March 30th at 5pm
Convent Hill Housing Development
Community Room
455 East Ogden
*Street parking***
