October is Talking About Sexuality month. The Plain Talk Milwaukee Initiative encourages all parents to talk to their teens about sexuality this month. If you don't know what to say or you lack the knowledge, don't worry! Plain Talk Milwaukee has just what you need. Parents, please be encouraged to bring your children out with you for this special dinner. Come out and enjoy a good meal and receive the information you need to communicate with your child about sexuality from our panel of expert Fathers.

The Plain Talk Milwaukee Initiative education offers resources and referrals for teens, parents of teens, and concerned adults on how to communicate about sex and teen pregnancy to enable young people to make positive choices and stay healthy.
